On behalf of The Buddy Project, I would like to personally thank you for your generous donation of computer technology. The equipment is now in the process of either being recycled, redistributed to our clients, or sold to raise program funds. Your donation will help us to continue our mission in distributing viable technology to those with developmental disabilities, and recycling non-functioning technology to keep the materials out of landfills.

This recent thoughtful donation enables us to continue our mission and provide a needed service to our community. I can only hope that we will continue to receive your generous support for years to come.

The following is an itemized list of the equipment donated:

Item Description	Number of Items	Item Value	Total Value

Once again, thank you for your generous donation!
